

## Coalville CC - Navigational 12 Car Rally

Crows 6 - Back in the Black - 28<sup>th</sup> October 2015

### Handout 1

Handout from a friend at MC1

"Where can we go from here? Where can we scurry to?" asked the mouse, to a friend of Esmeralda who had no name.

"I'll tell you" the friend said, "but beware of the crows, never let the crows know where you are. They fly in straight lines as all crows do, and will swoop mercilessly on little mice like you and carry you off to their roosts. Be very careful and don't drive too fast. 24 mph is all you need to achieve to avoid waking the crows and their evil henchmen the bluebottles."

"You must start by going Southeast and then avoid all crows which hide in churches with spires, but churches with towers or churches without either can be safely approached. You will need to pass 4 in fact before you arrive safely at IRTC1. Don't even think of using a red road before RTC2 at 598 916, and make sure you don't commit the FOLLY of crossing the haunted BRIDGE."

Crows 6 - Back in the Black - 28<sup>th</sup> October 2015

### Handout 2

Handout from a friend of Esmeralda who might just be a cousin of a friend with no name at RTC2

"How can we get to STC3 at 614881 squeaked each mouse in turn?"

"It's not difficult" said the friend, "you must drive at 30 mph and only take 14 minutes, you must beware of the crows watching at 2 Give Way junctions onto Red Roads, you must stop."

"Be sure you arrive at STC3 with the rising sun in your rear view mirror, or the crows will laugh. They will laugh even more if you don't find PCA on the way"

### Handout 3

Handout from a friend with no name at STC3

"YYYYYYYYYYYY" squeaked Esmeralda is there no way of knowing how to get to STC4?

The crow in the tree cawed a warning to all mice that 128 other crows must be avoided. If they do they will find PCB and then after STC4 all mice must stop at 609838 before arriving at TTC5.
